# POYNT REGISTER APP

## Organize, Optimize and Transact in One Place

Register lets you optimize your catalog in order to process transactions accurately and efficiently, making your customer's payment experiences seamless.

## FEATURES

- Flexible hierarchy of Catalogs, Categories and Products to suit your needs
- Benefit from flexibility of custom taxes, surcharges and discounts, allowing you to apply the right additions at the right time
- Manage Inventory with reports, like item-level reporting, which tells what is and is not selling.
- Process refunds directly from the Register app, eliminating the need to jump from app to app
- Register comes pre-programmed on all Poynt Terminals
- Customers can easily add or modify their catalog on Poynt.net or via the Poynt Smart Terminal.

# POYNT SALES HUB

Poynt Apps contain the essential apps merchants need to optimize their business operations, like order ahead, time clock management, upgraded POS, cash & tip reporting, and POS integration.

Merchants can customize their Poynt terminal with apps designed to create a more efficient business operation.

Poynt Apps uses an innovative approach to developing long term value for merchants.

## MERCHANT SERVICES

In a fast paced business environment, merchants need a POS system that allows for streamlined transactions, and Poynt can accomplish this. We look forward to assisting you with a payment processing solution that suits your individual business needs.

Contact your Merchant Services representative to learn more about the many options available to bring value to your business through Poynt Register.
